Model 0125-060: Basic Snuffer 60 SCFM Dual Line C.A.F.S.; 35 HP gasoline engine; Manual Foam controls; digital foam injection system (0.2-1.0%, 1 gpm capacity); 125 gpm @ 100 psi; 2 x 1½" C.A.F. panel outlets, Class A foam. **PART # 800038 PRICE: _____**

Model 0125-060 comes with rotary screw air compressors. These models are intended to be added to new trucks being built, primarily Brush Trucks and Rescue Units. They can also drop into the back of a One Ton Pick Up. As such they are seen in first line response for rural application such as brush & grass fires. Also found on initial response vehicles in urban and urban interface applications.
